Overview

What is a cotek power inverter?

A Cotek power inverter is one of the best manufactured pure sine wave DC to AC inverters on the market today. We have free shipping on many of their models.

Why should you choose cotek pure sine wave power inverter?

Innovative product design, strict quality control, as well as responsible before and after sales service provide customers with superior power conversion products at extremely competitive prices. Cotek Pure Sine Wave power inverters - advanced microprocessor design, heavy duty transformer for inductive loads, full protections, meet UL.

What is a cotek s series stand-alone inverter?

COTEK S Series stand-alone inverters offer superior quality pure sine wave output, and are available in 12/24/48V models from 150 to 1500 watts. They are ideally suited for electrical systems that already have a quality battery charger.

What is a cotek St series pure sine wave inverter?

COTEK ST Series pure sine wave inverters are microprocessor controlled inverters with a built-in transfer switch. These pure sine wave inverters are capable of driving highly reactive & capacitive loads at start-up. A Cotek power inverter is one of the best manufactured pure sine wave DC to AC inverters on the market today.
