

# Israel Power Storage Vehicle

## Overview

---

How many high-voltage energy storage projects are there in Israel?

To support this transition, Israeli network operator Nega Company ran a tender in July 2024 which attracted offers from 11 bidders for the construction and operation of 29 high-voltage energy storage projects, totaling approximately 4 GW with each project offering a storage capacity for at least four hours.

How much does a battery storage project cost in Israel?

The Israeli Electricity Authority (IEA) has awarded contracts for 1.5 GW of high-voltage battery storage capacity across 11 projects to be developed in three regions of Israel. The tender, which attracted 11 bidders proposing 29 projects for a total capacity of 4 GW, set capacity tariffs ranging from US\$49.41/kWh to US\$74.20/kWh.

How many mw can a battery store in Israel?

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that can store between 1,300 and 1,900 MWh of energy.

How much does a battery cost in Israel?

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. From ESS News Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.
