

# **Israel monocrystalline solar panel BESS**

## Overview

---

What is a battery energy storage system (BESS) project?

We specialize in the development of battery energy storage system (BESS) projects, which are crucial components in advanced energy storage solutions. Our large portfolio of generation assets with grid connection enables us to add BESS to existing projects and develop additional solar-plus-storage facilities.

How many residential buildings in Israel have gone solar?

Only a handful of residential buildings in Israel have gone solar due to multiple obstacles, one of which is that a residents' committee cannot secure a bank loan. An apartment building fitted with solar panels (but not storage) in the southern city of Beersheba, through the Sun for All initiative. (Yuval Pan).

Could a green track Help a home install a 15 kilowatt solar system?

A green track already enables any home installing a 15-kilowatt system anywhere in the country to get to the front of the queue with minimum bureaucracy. Eifer told The Times of Israel it took just a few weeks from deciding to go solar to connect to the grid.

## Israel monocrystalline solar panel BESS
