

Jakarta Lighting Solar Light Sensor Light

Overview

How do LED lights work in Jakarta?

Old HPS lamps in the side streets are controlled individually together with dimmable LEDs in central avenues. A comprehensive lighting control system was implemented in the city center of Jakarta. A total of 4,000 LED lighting poles were equipped with state-of-the-art technology to enable efficient management and control.

Do solar street lights work in Indonesia?

Solar street light solutions are no exception! With over 17000 islands, Indonesia is a worldwide tourist attraction handling more than 20 million people every year. The country is quite popular for its beaches, volcanoes, and landscapes. However, there's a vast use of new-gen technologies and infrastructure.

How many led & HPS lights are used in Jakarta?

Over 4,500 lights LED and HPS lights in Jakarta are switched and dimmed through powerline control according to special saving scenarios. Careful deployment plan and special filtering algorithm made it possible to combine both controlled and uncontrolled lights within a single power line.

How a lighting control system was implemented in Jakarta?

A comprehensive lighting control system was implemented in the city center of Jakarta. A total of 4,000 LED lighting poles were equipped with state-of-the-art technology to enable efficient management and control. The project involved the installation of 65 gateways and 3,750 PLC control nodes strategically placed throughout the area.
