

Jakarta solar container battery construction

Overview

What is Indonesia's first & largest containerized battery energy storage system?

Indonesia's First & Largest Containerized Battery Energy Storage System. Off-grid solar energy system at PT Cipta Kridatama equipped with CBESS. The CBESS solar energy system at PT Cipta Kridatama Jambi operates off-grid, making it a reliable, self-sustaining energy source without dependence on the national electricity grid.

Who owns a power battery in Indonesia?

The venture by Indonesia Battery Corp and Chinese giant Contemporary Amperex Technology Co is part of a US\$6 billion power battery project signed in 2022 by Indonesian companies, including state-miner PT Aneka Tambang Tbk, and a CATL consortium. The partnership spans nickel mining and processing, EV battery manufacturing and battery recycling.

Will RGE and totalenergies develop a solar power plant in Indonesia?

JAKARTA, May 29, 2025 – RGE and TotalEnergies have signed a co-investment agreement to jointly develop a solar power plant with battery energy storage in Indonesia through their joint venture Singa Renewables, the companies said on Wednesday. The project will be located in Riau Province and built in phases.

Why should Indonesia build a battery factory?

This would significantly increase state revenue and national prosperity. With this groundbreaking, Indonesia is not only building a manufacturing facility — it is shaping a future as a global leader in battery technology and renewable energy.
