

Lebanon Electricity Supply Authority Uninterruptible Power Supply

Lebanon Electricity Supply Authority Uninterruptible Power Supply

[Setting Lebanon's Electricity Sector](#)

Increase Supply of Cheaper, more Sustainable Electricity Supply Improve the Sector's Operational and Financial Performance Improve Sector Governance and Transparency Rehabilitation of the National Control Center and EDL main building. The first step in rebuilding the NCC is to: Short- to medium-term (1-2 years) - Public administrations, refugees and displaced Syrians, water establishments and other entities to pay their overdue and future electricity bills The solutions put in place in this plan require significant public and private capital investments Medium- to Long-term (2-5 years) 5.2. ACTION PLAN Medium- to long-term (3-5 years) 6. CONDITIONS FOR THE SUCCESSFUL IMPLEMENTATION OF THE PLAN Financial Support from the public 7. PROGRESS TOWARD SHORT-TERM OBJECTIVE AND BROADER VISION Transmission and Distribution Financial The first policy objective is ensuring reliable, affordable, and sustainable (24/7) electricity services across Lebanon in an efficient, fiscally balanced, and environmentally friendly manner. This goal should be achieved while accelerating the transition to a sustainable energy future for Lebanon that prior See more on energyandwater.gov.lb/limslb
