

Lithium power station factory in Bandung

Overview

China's REPT Battero has revealed plans to build a lithium-ion battery plant in Indonesia, targeting 8 GWh of annual production capacity in the first phase. From ESS News Will China build a lithium-ion battery plant in Indonesia?

China's REPT Battero has revealed plans to build a lithium-ion battery plant in Indonesia, targeting 8 GWh of annual production capacity in the first phase. From ESS News Hong Kong-listed REPT Battero has announced plans to invest in a new battery production facility in Indonesia.

When will a new lithium-ion battery plant start in Indonesia?

A new lithium-ion battery plant, a joint venture between Indonesia Battery Corp and China's Contemporary Amperex Technology Co (CATL), is slated to begin operations by December 2026, an Indonesian official announced on June 29, 2025. The facility.

Will Indonesia's lithium-ion battery facility be operational in 2026?

According to an Indonesian official on Sunday, a lithium-ion battery facility that is being developed by an Indonesia battery business and China's CATL is anticipated to be operational by the end of 2026, with an initial capacity of 6.9 gigawatt hours.

Why is Indonesia a leader in the lithium battery industry?

In 2024, Indonesia stands at the forefront of the rapidly evolving lithium battery industry, catalyzed by its significant reserves of raw materials essential for battery production and a growing focus on renewable energy sources. As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a

Lithium power station factory in Bandung
