

Macedonia New Energy BMS Battery Factory

Overview

How many jobs will North Macedonia's new battery factory open?

The investment will open 600 new job positions, North Macedonia's government said in a press release. The factory, which will specialise in battery management systems (BMS) and power electronics systems, will have a capacity to produce 300,000 units per year. Production is expected to start in 2024.

What is North Macedonia doing to improve battery life?

The company began to explore all aspects of battery life, from cell production to battery pack systems to the final stage, Recycling. North Macedonia will be the second site after Belgium, more than 25 projects are in development and 10 000 units are produced annually.

When will BMZ battery production start?

Battery production at the new factory is scheduled to start in May 2025. It will create 700 new jobs. BMZ wants to use the plant to strengthen its position on the global market. The Franconian storage manufacturer BMZ Group is expanding its production capacities.

Where is BMZ building a new production facility?

The company has started the construction of a new production facility near the North Macedonian capital Skopje. BMZ is building a new plant with an area of 6,800 square metres in the Skopje 2 technological-industrial development zone. There is still enough space on the site to expand production at a later date.
