

Main breaker switch in China in Uk

Overview

What are the different types of main switches?

Main switches are categorized according to their intended application (domestic, commercial, industrial), installation method (fuseboard, consumer unit, distribution board), and operational mechanism (switch, circuit breaker, molded case circuit breaker (MCCB)).

Who makes goodtop switch & sockets in China?

Through over a decade of development, GOODTOP has emerged as a leading manufacturer of switch and socket products in China. Their top-tier management team consists of seasoned experts dedicated to upholding stringent manufacturing protocols. This ISO 9001 certified company specializes in crafting premium light switches and electrical sockets.

Why should you choose China for a switch & socket?

China stands as a global powerhouse in the production of switches and sockets. If you're in search of competitively priced, high-quality wall switches and electrical sockets, the factories in southern China are your ideal destination.

What BS EN standards affect main switch selection & installation?

Several key BS EN standards directly impact main switch selection and installation. BS EN 60898, for instance, comprehensively covers low-voltage switchgear and controlgear, specifying crucial safety features and performance criteria for circuit breakers, including main switches.
