

Malta bms solar container lithium battery customization

Overview

What is a battery management system (BMS)?

Voltaplex is proud to design and manufacture battery management systems (BMS) that optimize lithium-ion battery packs' safety, reliability, and performance. We engineer our solutions for seamless integration across various industries, including robotics, automotive, and medical devices.

What is inside a voltaplex BMS battery management system?

Inside every Voltaplex BMS battery management system is a purpose-built core. This core contains microcontrollers, precision voltage sensors, temperature monitors, balancing circuits, and communication protocols tailored to you and your industry's needs.

What is voltaplex BMS?

Industrial Energy Storage: Voltaplex's BMS maintains safety and longevity in backup systems and off-grid power units by monitoring high-capacity lithium-ion battery management systems with scalable, remote diagnostics.

Aerospace and Defense: Our BMS design provides rugged, high-reliability power for drones, avionics, and tactical gear.

How do I create a custom battery management system?

Our process for creating custom battery management systems begins by developing BMS modules and custom BMS boards that manage your project's voltage, current, temperature, and data communication with total accuracy.
