# Mobile Photovoltaic Containerized Type for Wastewater Treatment Plants

## Overview

---

What is containerized mobile wastewater treatment plant?

Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by mounting all the equipment in the factory in standard iso containers or specially produced containers.

What is a Biocell water containerised wastewater treatment plant?

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity.

What is a containerised portable sewage treatment plant?

A containerised portable sewage treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable wastewater volumes to achieve any effluent quality.
