

Mobile charging power box

Overview

How much power does a mobibox 1 Phase car charger have?

The MobiBox 1-phase mobile car charger has a maximum power of 2.9kW to charge your car safely yet efficiently. The charger can be set to 6A, 10A or 13A (13A=2.9kW) Looking for a more powerful charger on the go?

Then our Ratio PowerBox might be a suitable solution.

How does the mobibox mobile car charger work?

With this portable car charger, you can even charge your car when no (public) charging station is available. You simply charge via the wall socket with the MobiBox mobile car charger, but safely. So you are always prepared, whether at home, on holiday or on the road.

How safe is the mobibox mobile car charger?

With the MobiBox mobile car charger, however, you are assured of safely charging a car via the wall socket. This is because the Ratio MobiBox is equipped with protection against undervoltage, overvoltage and overcurrent protection. You therefore charge your car in a stable and safe way.

How does the ratio mobibox mobile car charger work?

You simply charge via the wall socket with the MobiBox mobile car charger, but safely. So you are always prepared, whether at home, on holiday or on the road. With the Ratio MobiBox, you no longer depend on (public) charging poles when you want to charge your electric or hybrid car, but use an average power socket.
