

# **Mobile portable energy storage power supply in Bosnia and Herzegovina**

## Overview

---

Electric power generation is a key sector of economic activity in BiH. Electric power is primarily generated in coal-fired thermal and large-scale hydro power plants and the country is a net exporter of electricity.

What is electric power generation in BiH?

Electric power generation is a key sector of economic activity in BiH. Electric power is primarily generated in coal-fired thermal and large-scale hydro power plants and the country is a net exporter of electrical energy. The generating capacity is about 17,000 GWh.

How is electricity generated in BiH?

Electric power is primarily generated in coal-fired thermal and large-scale hydro power plants and the country is a net exporter of electrical energy. The generating capacity is about 17,000 GWh. BiH historically had a comparative advantage in electricity, particularly because of its natural hydropower resources and coal reserves.

What happened to the power system in BiH after the 1992-1995 war?

After the 1992-1995 war, the once-unified power system in BiH was divided into three vertically integrated companies split along geographic/ethnic lines.

## Mobile portable energy storage power supply in Bosnia and Herzegovina
