

BUHLE POWER

Mongolia High Voltage Inverter Company

Overview

Is Mongolia expanding UHV transmission capacity?

Ye Ligang, general manager of the Ultra and Extra High Voltage Branch of State Grid Inner Mongolia Eastern Electric Power Co, highlighted the region's consistent expansion in UHV transmission capacity.

How much electricity does Inner Mongolia deliver?

As of March 3, Inner Mongolia had delivered 302.85 billion kWh of electricity via UHV grids to North China, East China, and Central China, representing an 11.01 percent year-on-year increase, meeting the annual power demand of nearly 30 million people.

How many UHV projects are there in Inner Mongolia?

These projects will enhance connectivity between western Inner Mongolia and the Beijing-Tianjin-Hebei region; Kubuqi and Shanghai; Tengger and Jiangxi; and Ulan Buh and the Beijing-Tianjin-Hebei-Shandong region. Currently, 12 additional UHV projects are in the pipeline, marking the beginning of a new phase of rapid UHV expansion in Inner Mongolia.

How many UHV transmission corridors are there in Inner Mongolia?

To support large-scale power delivery, Inner Mongolia has established eight UHV transmission corridors linking it to Tianjin municipality, as well as Shanxi, Shandong, and Jiangsu provinces, forming a robust north-south power transmission network.
