

New Zealand Telecom Uninterruptible Power Supply Prices

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS), is an easy-to-install device designed to provide backup power to computers, servers, server rooms and data centres in the event of a main energy failure, electrical surge or unexpected power cut.

What is ups power supply?

An uninterruptible power supply (UPS) is a backup power device that keeps equipment running during outages and shields it from surges. It bridges short blackouts, giving you time to save work, stay connected and shut down devices safely.
