

New hydrogen energy small container station in Bern

Overview

Where is the first hydrogen filling station in Switzerland?

SOCAR Energy Switzerland opened the first hydrogen filling station on a Swiss motorway, located at Grauholz Süd near Bern. This milestone marks SOCAR's commitment to developing a nationwide network of hydrogen filling stations, promoting sustainable mobility and reducing CO₂ emissions.

When will the SOCAR hydrogen filling station be ready for Operation?

The hydrogen filling station is expected to be ready for operation by the end of May. The SOCAR hydrogen filling station Grauholz Süd near Bern will be the first of its kind on a Swiss motorway and the first to be operated by SOCAR.

Will a hydrogen filling station be a cornerstone for Swiss road traffic?

"In future, the Grauholz Süd hydrogen filling station will form a cornerstone for the supply of hydrogen to Swiss road traffic", emphasises Edgar Bachmann, CEO of SOCAR Energy Switzerland: "Hydrogen technology offers ideal conditions for sustainably reducing CO₂ emissions in road traffic.

When did SOCAR inaugurate the first green hydrogen filling station?

On 9 June 2023, Socar inaugurated the first-ever green hydrogen filling station on a Swiss Motorway. The official event was attended by the representatives of the company as well as the governmental departments involved.
