

**BUHLE POWER**

# **Nordic solar glass house manufacturer**

## Overview

---

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

What is Danish solar energy?

Danish solar energy releases the world's most efficient selection of colored solar modules. This ingenious technology is especially interesting for the building industry, where solar energy can be integrated 100% in the building so that roofs and facades in practice become energy producing.

Who is Onyx Solar?

Founded in 2009, Onyx Solar is a global leader in photovoltaic glass solutions for building-integrated photovoltaics (BIPV). With over 500 projects across 60 countries, we harness sunlight to generate clean energy while enhancing thermal insulation, acoustic control, and filtering ultraviolet (UV) and infrared (IR) radiation.
