

PACK battery factory in Cape Town

Overview

Who makes a battery in Cape Town?

The second-largest battery assembly plant is owned Balancell, which recently upgraded its production facility in Cape Town to support up to 1GWh output per year. Balancell's biggest customer is Toyota Material Handling, while other well-known customers include Cape Fruit, Clicks Nestle, Shoprite, Spar, and Pick n Pay.

How will a new battery plant help South Africa?

The new facility will help the company - which designs, engineers, and manufactures lithium ferro-phosphate smart batteries used in a wide range of industries - take its cutting-edge technology to the world, while continuing to power South African industry towards a cleaner future.

Does South Africa manufacture batteries?

Technically speaking, South Africa has no facilities that can manufacture batteries from start to finish. That is because there is no plant producing the cells that form the basic building blocks of batteries.

Where are balancell batteries made?

Balancell's lithium ferro-phosphate batteries are designed, engineered, and produced in South Africa. The batteries use almost exclusively local components, making them a truly South African innovation.
