

Poland Krakow lithium iron phosphate battery energy storage container

Overview

Who will supply ESS batteries in Poland?

The contractor on the project will be LG Energy Solution Wrocław. The Polish unit of the Korean battery maker won the project tender offering the price of PLN 1.555 billion (\$384 million). On Monday, LG Energy Solution confirmed that it had signed an agreement with PGE to supply 981MWh of grid-scale ESS batteries between 2026 and 2027.

What is the largest battery energy storage facility in Poland?

With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe. The contractor on the project will be LG Energy Solution Wrocław.

Where will LG Energy Solution supply lithium iron phosphate batteries?

It also noted that the project will be supplied with locally manufactured grid-scale lithium iron phosphate batteries at LG Energy Solution's production facility in Poland. LG Energy Solution will also be in charge of the project design and construction on a turnkey basis. Completion of construction is scheduled for 2027.

When will LG Energy Solution start delivering lithium iron phosphate (LFP) batteries?

The company announced that it signed a battery supply agreement with PGE on March 24. Under this deal, LG Energy Solution will begin delivering lithium iron phosphate (LFP) batteries for ESS starting in 2026, manufactured at its Wrocław facility in Poland.
