

San Jose Carport solar Panel Manufacturer

Overview

What is a solar carport?

1. What is solar parking or a solar carport?

A solar carport is a structure that combines the function of vehicle parking with renewable energy generation. The carport with solar panels is equipped with solar panels installed on the roof, providing shade for vehicles while producing clean electricity.

Which companies have solar carports?

Several companies have solar carports. For instance, Whole Foods constructed 325 kW of solar power at their site in Brooklyn, NY, covering their entire parking lot in solar panels. Additionally, Lockheed Martin Mission Systems and Training (LM MST) have had solar carports installed at their facility in Clearwater, FL.

Who is carport structures?

Drawing from over 40 years of experience in steel carport design Carport Structures is redefining what commercial carports and canopy structures can be used for. Working together with renewable energy experts and solar developers, Carport Structures has developed a complete line of steel carports specifically for solar energy applications.
