

Schools need mobile folding containers

Overview

Why do schools need storage containers?

When schools need more space for new construction, expansion or other needs, storage containers and modular buildings provide additional storage and workspace for students and staff. Our secure shipping containers are ideal for storing seasonal equipment and maintenance supplies.

How many portable classrooms are there?

The building's eight portable classrooms are arranged in an "H" shape so that each classroom attaches to the school's central 1,500-square-foot common area. Each classroom is 1,080 square feet with two 4-by-4-foot windows, an exterior door and floors covered in 2/3 carpet and 1/3 tile.

Can prefabricated school buildings be reused?

The university purchased the used prefabricated school buildings from a local public school district for a fraction of the original cost. By reusing an existing set of buildings, the customer was able to have their entire swing space plan completed before the start of the fall trimester.

What is a modular container building?

Durable and attractive modular container buildings that can be built and open in half the time of traditional construction, providing cost-effective option for commercial offices, medical buildings, kiosks, classrooms, child care facilities, government offices and more.
