

Sierra Leone Solar Lighting Project

Overview

How many solar street lights are installed in Sierra Leone?

Installation of Solar Street Lights: The Ministry of Energy Sierra Leone has installed 8471 solar street lights in the fourteen district headquarter towns across the country. The facilities were handed over to the various district councils, city councils and local councils in 2017.

Does Sierra Leone have a low energy access rate?

Sierra Leone currently has one of the lowest energy access rates globally, with only 36% of its population connected to the grid and a mere 6% in rural areas. The SOGREA Initiative supports the government's aim to increase the share of renewable energy in the country's energy mix to 35% by 2030. "By 2027, Sierra Leone will be fully illuminated.

Will Sierra Leone be fully illuminated by 2027?

The SOGREA Initiative supports the government's aim to increase the share of renewable energy in the country's energy mix to 35% by 2030. "By 2027, Sierra Leone will be fully illuminated. This isn't just about light; it's about igniting green industrialisation and fulfilling the National Development Plan as a Government.

What is the Sierra Leone water project?

The Water Project has been building wells to provide clean water to over 7,000 Sierra Leoneans so far. There are plans for more projects that will allow schools and rural communities to have access to safe drinking water. Children often bear the burden of walking miles each day to find water in streams and ponds.
