

Slovakia solar container communication station Inverter Grid-connected Installation Regulations

Overview

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea – to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Are electricity prices regulated in Slovakia?

liberalised in 2005 – wholesale price is not regulated. Prices of electricity import and export are fixed on the basis of bilateral contracts between buyer and seller. Since January 2005 volumes of cross-border trades and transmission through Slovakia's transmission system are not limited.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

How does solar power affect utility grid stability and security?

The proliferation of solar power plants has begun to have an impact on utility grid operation, stability, and security. As a result, several governments have developed additional regulations for solar photovoltaic grid integration in order to solve power system stability and security concerns.
