

Small solar power generation system in St Petersburg Russia

Overview

What percentage of solar PV power plants are in Russia?

Of the total global Solar PV capacity, 0.13% is in Russia. Listed below are the five largest upcoming Solar PV power plants by capacity in Russia, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete picture of the global Solar PV power segment.

What is the Petersburg Solar Project?

The Petersburg Solar Project is another step in our strategy to accelerate the future of energy.

Does Russia's energy mix rely on wind and solar PV?

the conditions for significant penetration of wind and solar PV in Russia's energy mix via utility-scale PV and wind parks coupled to storage in large Li-ion battery and solar hydrogen systems.

Which country has the most solar power plants in the world?

Solar PV capacity accounted for 16.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded solar pv capacity of 1,496GW. This is expected to contribute 33.7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Of the total global Solar PV capacity, 0.13% is in Russia.
