

# **Small white inverter 12v24v universal**

## Overview

---

What is a 12V 240V inverter?

A 12v to 240v inverter is a great way to save energy. These devices convert DC power to AC power, which enables the user to use less energy when powering electronic devices. 2. Remote Control Some inverters come with remote control, which makes it easy to turn the device on and off. 3. USB Port.

What is a 24V inverter?

Built with truckers and professional drivers in mind, our 24V inverters are compact, lightweight, and quiet in operation. Once connected to your battery, you get a stable and reliable power supply from the output socket ready to handle everything from small electronics to higher-wattage appliances, depending on the model you choose.

What is the difference between 12V & 24V inverter?

- Difference between 12V & 24V inverter beside the power output and draw. 24V inverter you have to add extra batteries 2 at a time. 12V this is not necessary.
- The inverter is supposed to shut down at \*\* 30% SoC (state of charge), this is also indicated on the Mecer Inverter LCD.
