

Solar fusion tile

Overview

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

How do solar tiles work?

Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof. Photovoltaic cells in solar tiles turn sunlight into direct current (DC) energy.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.
