

# **Solar powered portable outlet in Bandung**

## Overview

---

Can a mobisun solar panel be charged with other solar panels?

The solar panel is splash-proof and, in addition to a power outlet, also features a 12V car plug output and two USB (C) outputs. In addition, through a separate 16 ~ 25V DC (2 pin GX16) input, the solar panel can be charged with other 60W or 100W Mobisun Solar Panels, thus increasing the charging capacity.

Should I use a surge protector when charging my devices in Indonesia?

Always use a surge protector when charging your devices in Indonesia to prevent damage from power fluctuations. When in Indonesia, avoid using high-wattage devices (e.g., hair dryers, curling irons, and straighteners) without a proper voltage converter, as they can cause damage to your devices or the electrical system.

Which plug type is best for Indonesia?

Despite being bulkier than the Europlug, plug type F is a widely used and reliable option for those traveling or living in the regions where it's used. Ensure your devices have compatible plugs or bring an appropriate power adapter to use them in Indonesia. [Power Adapter for Indonesia?](#)

.

Do I need a power adapter in Indonesia?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Indonesia, you will need a power adapter and/or a voltage converter/transformer.
