

Solar three-arch tile glass

Overview

What is a double glass solaruv tile?

Double-Glass Plain Solaruv tile (Han and Tang style Solaruv tile) 18W. It suits for the architecture of Tang and Han style, elegant and comfortable. For example: Han and Tang-style architecture Japanese architecture, landscape architecture, new Chinese architecture, etc.

What is HanTile solar roof?

Based on Hanergy's MiaSolé high efficiency Thin Film cells, the Hantile is the ultimate roof application of thin film. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Under all circumstances.

Why should you choose a curved solar roof tile?

Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Under all circumstances. Hantile has the reliable waterproofing and ventilating structures which are excellent in performance and long in service life.

Who is solaruv tile?

Cutting-edge equipment Solaruv Tile has determined to push forward the localization and scale of thin-film solar equipment and completed, and now it can deliver super GW-level equipment, becoming the largest “turn-key provider” of the thin-film solar energy production line in the world.
