Sri Lanka 5MW Solar Container

Overview

Will Sri Lanka develop 165 MW solar plants?

Sri Lanka's Ceylon Electricity Board has kicked off a tender for the development of up to 165 MW (AC) of ground-mounted PV projects on a build, own, operate basis. The solar plants can range in size from 1 MW to 5 MW and will be connected to one of 20 grid substations outlined in the tender documents, subject to capacity at each grid substation.

Can Sri Lanka develop ground-mounted solar?

Sri Lanka has launched a tender for 165 MW (AC) of ground-mounted solar, accepting applicants to develop solar plants up to 5 MW in size, connected to one of 20 selected substations across the country. The winners will sign 20-year power purchase agreements (PPAs) with the state-owned Ceylon Electricity Board.

How many solar substations can I apply for in Sri Lanka?

Applicants can submit more than one proposal for each grid substation up to its capacity. The deadline for applications is May 3. Sri Lanka recorded 714 MW of solar capacity by the end of 2022, according to the International Renewable Energy Agency. This content is protected by copyright and may not be reused.

How much solar power does Sri Lanka have in 2022?

Sri Lanka recorded 714 MW of solar capacity by the end of 2022, according to the International Renewable Energy Agency. This content is protected by copyright and may not be reused.
