

# **Sudan s new solar panels selling price**

## Overview

---

Which solar energy options are available in Sudan?

In Sudan, three solar energy options are available: 1. Solar PV energy: 1000 MW (on- and off-grid) will be applicable in different states within Sudan. 2. Solar CSP technology: 100 MW (grid connected) will be applicable, especially in the northern part of Sudan. 3. Waste to Energy: 80 MW (grid connected) will be applicable in several intended sites.

Should solar energy be adopted in The Sudan?

Theoretically,, technically,, and long term, there are huge potentials for solar energy adoption in The Sudan. The present transition phase requires a serious practical focused strategy to make positive contributions to its energy sector and development altogether.

How much does electricity cost in Sudan?

As for Ethiopia, Sudan imports electricity at a price of 4.5 cents/kilowatt . In August 2021, the Minister of Energy and Petroleum declared that the Sudanese energy sector needed urgent maintenance and restructuring at a cost of \$3 billion, another indicator of the dire financial needs of the sector .

Should Sudan invest in solar energy?

Given the strong support of the population for this technology and the high solar radiance across the country, Sudan, primarily represented by the government, needs to grasp this rather invaluable opportunity to invest in solar energy. However, the government's present tax policies and lack of incentives act as a large barrier against its diffusion.
