

Syrian solar Power Generation and Energy Storage Company

Overview

Is solar energy a solution to Syria's electricity crisis?

After more than thirteen years of war, Syria's electricity crisis has only deepened, compounding the suffering of its people. The former Assad government failed to secure stable energy supplies, and as shortages worsened and fuel prices soared, the regime turned to solar energy projects as an alternative, seeking to mitigate the crisis.

Where do solar panels come from in Syria?

However, renewable energy equipment does not enter Syria easily. Four importers we spoke to confirmed that most solar panels and batteries are shipped from China to Syria through Jebel Ali Port in the UAE or, at times, the Port of Aqaba in Jordan.

Is solar energy a viable option in Syria?

As the electricity crisis worsens, solar energy is no longer just an option – it has become an unavoidable necessity. Yet the high cost of installing photovoltaic systems has pushed many Syrians to rely on subsidized loans, particularly those provided by the Renewable Energy Support Fund, which offers interest-free financing.

How to get a solar loan in Syria?

By February 2023, branches of the Syrian Commercial Bank began accepting applications for renewable energy loans. According to the official process, applicants submit a request to the Fund, which determines the financing ceiling based on a technical study of the required solar system.

Syrian solar Power Generation and Energy Storage Company

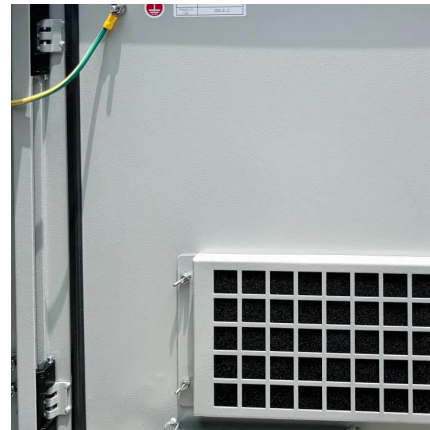

[The Top Energy Storage Companies Revolutionizing the ...](#)

Mar 31, 2023 · As we transition to a more sustainable future, energy storage companies play a crucial role in developing innovative technologies to harness and store the power we need. ...

[Syria Boosts Renewable Energy with New 100-Megawatt Solar ...](#)

Mar 27, 2025 · Syria is building a 100-megawatt solar power station near Damascus to boost its renewable capacity. Learn how this project enhances energy security and sustainability.

Saudi Companies Sign Agreement and MoUs with Syria's Ministry of Energy

Aug 28, 2025 · Saudi Arabian developer ACWA Power signed an agreement with the Syrian Ministry of Energy to conduct studies and submit proposals for solar projects and storage ...
