

Tallin ups uninterruptible power supply 220v

Overview

What is 5000 Volt UPS & battery backup?

5000VA/4000W line interactive UPS with battery backup is reliable uninterruptible power source for computer, servers and other critical devices. 5kVA UPS has optional input & output voltages of 220V/120V AC with overload protection, LCD display, compact design, high performance and favorable price. Applications.

What is the ups input/output configuration?

1. The UPS input/output configuration is 1-phase (L, N, G) like Europe standard, NOT support the split phase (L1, L2 + G) like USA standard. 2. If you need other output voltage range, please contact us. Details Tips: Maintenance of uninterruptible power supply (UPS) 1. Maintain the appropriate ambient temperature.

How does a large & medium ups work?

Most large and medium UPS have operational performance with microcomputer communication and program control. The corresponding software is installed on the microcomputer, which is connected to UPS by series or parallel port.
