

The largest energy storage project in the Philippines

Overview

The Philippines has commenced construction on the 3.5 GW Terra Solar Project, the largest integrated solar and battery storage facility in the world. Which country is working on the largest solar power plus battery storage project?

Or follow us on Google News! The Philippines is working on the largest solar power plus battery storage project in the world, breaking ground on the project just a few weeks ago. Philippines President Ferdinand R. Marcos Jr. featured for the groundbreaking of the Meralco Terra Solar Project.

What is the world's largest integrated solar and battery storage facility?

As the world's largest integrated solar and battery storage facility, it will cover 35 square kilometres, about four times larger than Sydney's Kingsford Smith Airport.

Is Terra solar the world's largest integrated solar & battery facility?

Philippines renewable energy companies have broken ground on the 3.5 GW Terra Solar and 4.5 GWh battery storage project, tipped to be the world's largest integrated solar and battery facility.

Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).
