

The largest solar container battery field in Togo

Overview

Where is the largest solar power plant in Togo?

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

What is the largest solar PV project in West Africa?

With additional phases, 70MW Solar PV+ 4MWh BESS has been operational since June 2023. Furthermore, AMEA Power signed a power purchase agreement and concession agreement in May 2024 to expand the capacity to 100MW + 14MWh BESS, making it the largest solar PV and battery storage project in West Africa.

How long has AMEA power been operating in Togo?

The initial 50MWp (Phase 1 and 2), was fully developed by AMEA Power from inception to operation in less than 24 months, even during Covid. This project is the first utility-scale renewable project in Togo. With additional phases, 70MW Solar PV+ 4MWh BESS has been operational since June 2023.
