

Tokyo solar Module Solar Energy

Overview

Will Tokyo have to install solar panels after April 2025?

Nearly all houses in Tokyo will have to install solar panels after April 2025. The regulation - passed by the Japanese capital's local assembly on Thursday - requires 50 major construction firms to equip homes of up to 2,000 square metres with renewable energy power sources.

Should you install solar panels in Tokyo?

Installing solar panels not only reduces monthly electricity bills but also ensures power availability during outages. Check the conditions and see how much subsidy you can receive. Tokyo will require solar panel installation on new homes starting April 2025.

Where can I find information about solar power installation in Tokyo?

The Tokyo Metropolitan Government's Bureau of Environment's solar power portal site provides detailed explanations of not only the "subject of the mandatory installation," but also the implementation date of the program (April 2025), "benefits of installing PV system," "actual costs," and other details.

Will Tokyo subsidize solar panels?

In March last year, the Tokyo Metropolitan Government established a 150 billion yen fund to subsidize the installation of solar power generation equipment for Tokyo residents. Subsidies will be provided if solar panels are installed during the construction of new eco-friendly houses or while retrofitting existing houses with insulation.
