

# **Ultra-high efficiency of foldable containers at port terminals**

## Overview

---

Can foldable containers benefit ports?

Overall, the case of the PoM Corporation suggests that the introduction of foldable containers can financially benefit ports and their operation in terms of reducing the pressure on space and infrastructure expansion requirements that currently stem from the increase in empty container traffic.

Do foldable containers affect port operation?

The opinion of the survey respondents on the impact of foldable containers on port operation suggests that, despite the benefits accrued to ports from additional terminal capacity and time saved by not having to move empty containers, there may be issues in sorting foldable containers.

Can foldable containers improve logistics management?

Capacity Improving Logistics Management Using Foldable/Collapsible Containers: A Case Study G 179 G constraints in ports for storing and repositioning empty standard containers are major concerns in the logistics and port industry. As an alternative, foldable containers have been introduced into the market.

Are foldable containers a good investment?

Foldable containers are considered to be a good investment in the logistics industry. One of survey respondents suggested that 'the foldable container can reduce space constraints on seaport and logistics companies and reduce container handling time in port terminals'.
