

Usb c power station in China in Uzbekistan

Overview

What voltage does Uzbekistan use?

Uzbekistan uses a standard voltage of 220 volts and a frequency of 50 Hz. The country uses two different plug types: C and F. Plug type C is the plug which has two round pins and plug type F is the plug which has two round pins with two earth clips on the side.

What type of plug does Uzbekistan use?

The country uses two different plug types: C and F. Plug type C is the plug which has two round pins and plug type F is the plug which has two round pins with two earth clips on the side. These plug types are common in many European countries, so if you have a device with a European plug, you should be able to use it in Uzbekistan.

Can you use a phone charger in Uzbekistan?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Uzbekistan outlet. Uzbekistan uses electrical outlets and power plugs of types C & F (see images).

Are there electrical outlets in Uzbekistan?

No, the electrical outlets in Uzbekistan are different from those in the United States. In Uzbekistan electrical outlets of types C & F are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Uzbekistan?

The electrical outlets and power plugs in Uzbekistan are of types C & F (see images).
