

# **Warsaw Communications Civilian 5G Base Station Installation Progress**

## Overview

---

Are mobile operators building 5G networks in Poland?

Mobile operators in Poland have been testing 5G technology and have begun preparations for building 5G networks. While early pilot projects were mostly based on Huawei technology, in later initiatives the operators have focused on Ericsson and Nokia.

Where is 5G deployed in Poland?

Operators have prioritized 5G deployments in the richest and densest parts of Poland where fiber is heavily deployed, including the Masovian (Warsaw) and Pomeranian (Tri-City) provinces.

When will SA 5G be available in Poland?

Deployment of SA 5G networks has still not occurred in Poland and is not expected before 2026, according to the latest announcements made by the President of Orange. For now, the operator is focusing on expanding coverage by stations that share LTE and 5G. 2.

Will Poland launch a 5G network in 2023?

The business plan for Polish 5G is yet to be developed but the goal is to launch a country-wide wholesale 700 MHz network in 2023. This is pioneering solution, yet to be consulted with the European Commission. Sales opportunities are open in Poland's 5G network development.
