

Western European new energy projects supporting energy storage

Overview

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

What is the European energy storage inventory?

The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time dashboard for energy storage also includes their locations and technologies – chemical storage, electrochemical storage, mechanical storage, and thermal storage.

How many battery energy storage systems were installed in Europe in 2024?

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking-installations, and bringing Europe's total battery fleet to 61.1 GWh. However, the annual growth rate slowed down to 15% in 2024, after three consecutive years of doubling newly added capacity.

Which European countries adopted energy storage in 2024?

The rate of energy storage adoption varied across European countries in 2024. Pumped-hydro storage (PHS): Italy, France, Germany, and Spain had the largest capacities. Residential electrochemical storage: Germany and Italy remained the top markets despite a slowdown.

Western European new energy projects supporting energy storage

[EU launches real-time dashboard for energy storage expansion](#)

Mar 5, 2025 · The aim of the European Energy Storage Inventory is to record all European energy storage projects by status - in operation, planned and under construction -, by location and by ...

[Western Energy Storage Strength: How Europe is Powering the Energy](#)

Dec 1, 2024 · Let's face it: Europe's energy storage game is getting hotter than a Tesla battery during peak discharge. With operated battery storage capacity now exceeding 20GW [1], the ...

[Europe's Battery Storage Additions Set for ...](#)

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 ...

[Europe accelerates renewable energy growth: 89 GW of energy storage](#)

Mar 31, 2025 · The report also projects continued strong growth through 2030, driven by technological advancements, policy support, and other key factors. Energy storage progress in ...

[Europe accelerates renewable energy growth: 89 GW of ...](#)

Mar 31, 2025 · The report also projects continued strong growth through 2030, driven by technological advancements, policy support, and other key factors. Energy storage progress in ...

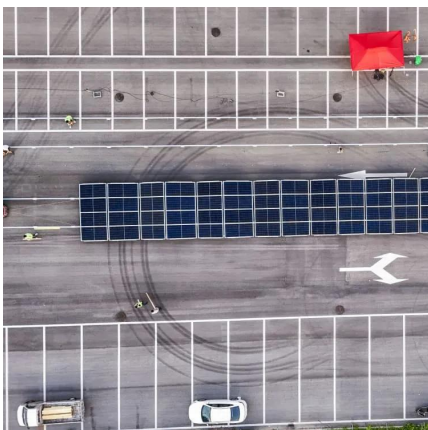

[EU launches real-time dashboard for energy ...](#)

Mar 5, 2025 · The aim of the European Energy Storage Inventory is to record all European energy storage projects by status - in operation, planned ...

EU Projects

Energy Storage Europe is currently involved in several EU-funded projects promoting research, innovation and demonstration in the energy storage sector. Our projects tackle a wide range of ...

[14 GW of energy storage capacity under ...](#)

Mar 13, 2025 · The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy ...

[European battery storage installations to grow 36% in 2025. ...](#)

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a slowdown in growth to 15 percent after ...

[The changing shape of European energy storage . Wood ...](#)

Nov 26, 2024 · What's the size and shape of the market? The European grid-scale project pipeline is large and diverse. We looked at all storage technologies apart from pumped hydro, ...

[European battery storage installations to ...](#)

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a ...

[The changing shape of European energy ...](#)

Nov 26, 2024 · What's the size and shape of the market? The European grid-scale project pipeline is large and diverse. We looked at all storage ...

[Europe's Battery Storage Additions Set for 45% Jump in 2025](#)

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 GW in 2025, a 45% year-over-year ...

[European Energy Storage Inventory . JRC SES](#)

This section outlines key EU projects, initiatives, and market trends in energy storage, highlighting efforts to integrate renewables, enhance grid stability, and support the clean energy transition.

[14 GW of energy storage capacity under construction in Europe](#)

Mar 13, 2025 · The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time ...

[New report: European battery storage grows 15% in 2024, EU energy](#)

May 7, 2025 · New report: European battery storage grows 15% in 2024, EU energy storage action plan needed Press Release 7 May 2025 MUNICH, Germany (Wednesday 7th May ...
