

# Where are the solar sites in Rwanda

## Overview

---

To date, there are three solar photovoltaic power plants connected to the grid, namely; GIGAWATT Global Solar Power, Jali Solar Power and Nasho Solar Power Plant located in Rwamagana, Gasabo and Kirehe districts respectively. How many solar power plants are in Rwanda?

Currently, Rwanda's total on-grid installed solar energy is 12.050 MW originating from 3 solar power plants namely Jali power plant generating 0.25MW, Rwamagana Gigawatt generating 8.5 MW, and the Nasho Solar plant generating 3.3 MW.

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.

How many solar home systems are there in Rwanda?

The market for Standalone solar systems is growing in Rwanda, and currently a total of approximately 50,000 solar home systems are known to have been installed in Rwanda for the last 3 years.

## Where are the solar sites in Rwanda
