

Wholesale bess storage system in Cebu

Overview

What is MGen's new energy storage facility in Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. / PNA MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

What is Bess & how does it work in the Philippines?

For commercial and industrial companies in the Philippines, BESS provides an opportunity to take control of their energy usage. These systems consist of high-capacity lithium-ion batteries and sophisticated energy management software.

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.
