

Wholesale solar power station in Vietnam

Overview

Where can I buy solar panels in Vietnam?

Vietnam's domestic solar panel distribution network has evolved into a sophisticated system serving both residential and commercial markets. Major distributors like Dien Quang Group and Rang Dong have established nationwide networks with over 2,400 retail outlets and service centers.

Does Vietnam have a solar panel market?

Vietnamese solar panel production capacity has grown from 2.5 GW in 2019 to an impressive 18.7 GW by 2024, representing a 648% increase in just five years. This remarkable growth has positioned Vietnam as the fourth-largest solar panel exporter globally, capturing approximately 12% of the worldwide market share.

What is solar energy in Vietnam?

Solar energy refers to the energy derived from the sun's radiation, which is converted into usable electricity through the use of photovoltaic (PV) cells or solar thermal collectors. The energy generated from solar power is clean, renewable, and abundant, making it an attractive option for meeting the rising energy demands of Vietnam.

How EVN operates the wholesale electricity market in Vietnam?

Through its various subsidiaries, it is responsible for operating the wholesale market, transmission and distribution. The Vietnam Wholesale Electricity Market still relies on a single buyer model. Recently, EVN committed not to increasing power price in 2022.
