

Zimbabwe solar Module Transportation Project

Overview

How many solar power projects are there in Zimbabwe?

As of 31 July 2019, the Zimbabwe Energy Regulatory Authority (ZERA) had issued more than 77 power generation licences with 42 being solar power projects. A number of IPPs are already selling electricity to the Zimbabwe Electricity Transmission and Distribution Company (ZETDC) and feeding into the national grid.

How many MW of solar energy has Zimbabwe deployed in 2022?

According to the International Renewable Energy Agency, Zimbabwe had deployed 41 MW of solar by the end of 2022. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: editors@pv-magazine.com.

Will Zimbabwe have a green hydrogen power plant?

Plans for Zimbabwe's first utility-scale green hydrogen power plant, with 178 GWh of expected annual electricity production, were finalized in March 2023. According to the International Renewable Energy Agency, Zimbabwe had deployed 41 MW of solar by the end of 2022. This content is protected by copyright and may not be reused.

Why is Zimbabwe focusing on renewables?

Zimbabwe's focus on renewables comes as it attempts to lessen its reliance on energy imports and improve access to electricity, as World Bank data shows that just 49% of the country had access in 2021. The country still faces significant power deficits, which contribute to regular power outages.
